Animal consciousness - Wikipedia

The sense in which animals (or human infants) can be said to have consciousness or a self-concept has been hotly debated; it is often referred to as the debate over animal minds.

Consciousness - Wikipedia

It poses the problem of other minds in an especially severe form, because non-human animals, lacking the ability to express human language, cannot tell us about their experiences. Also, it is difficult to reason objectively about the question, because a denial that an animal is conscious is often taken to imply that it does not feel, its life has no value, and that harming it is not morally

The Human Mind - All About Psychology

The Human Mind Psychology and the human mind are inextricably linked. Indeed, the word psychology is derived from the Greek words *psyche* , meaning mind or soul, from which the term *psych e* arose; and *logos* meaning study or discourse.
