[Thoracic Spinal Cord Injury | SpinalCord.com](#)

The thoracic region of the spinal column is made up of 12 segments referred to as T1 - T12. It is located in the middle of the spine between the cervical and lumbar levels.

[Thoracic and Lumbar Spine and Spinal Cord Injuries ...](#)

From an anatomical point of view, we must note the severity of thoracic spinal cord lesions especially of the thoraco-lumbar junction and of the lumbar region and be able to associate injuries of the conus medullaris and of the cauda equina where there is a possibility of neurological recovery. Clinical evaluation is not always easy, but remains the basis for diagnosis and prognosis. [The Understanding Thoracic Spinal Cord Injuries | Shepherd Center](#)

[Thoracic Spinal Cord Injuries](#) The thoracic spine is located in the upper and middle part of the back. Twelve vertebrae are located in the thoracic spine, and are numbered T-1 to

T-12.

Thoracic Spine Anatomy and Upper Back Pain - Spine-health

Connecting with the cervical spine above and the lumbar spine below, the thoracic spine runs from the base of the neck down to the abdomen. It is the only spinal region attached to the rib cage. It is the only spinal region attached to the rib cage.

Return-to-Play Recommendations After Cervical, Thoracic ...

These injuries are much less common due to the biomechanics of the thoracic spine, its relative immobility compared with the cervical and lumbar regions, and the protection afforded by the rib cage. 9 Spinal stenosis is less likely to occur in this region due to the larger ratio of spinal cord to spinal canal diameter. 9

Thoracic, Lumbar and Sacral Spine Injuries | Children's ...

In children older than 9 years, spinal column injuries tend to occur in the thoracic, lumbar and sacral regions (TLS) of the spine, rather than in the cervical spine as with very young children.

Timing of thoracic and lumbar fracture fixation in spinal ...

The arguments for early fixation of unstable thoracic and lumbar spine fractures are mainly based on the results of animal spinal cord decompression studies and clinical studies on timing of femur fracture fixation.
